

Acquisitions & Permitting

Overview

Acquiring ownership of natural resource assets (water, minerals, surface, timber, etc.) requires proper legal actions through numerous agencies. A variety of permits are needed for exploring and developing each type of natural resource.

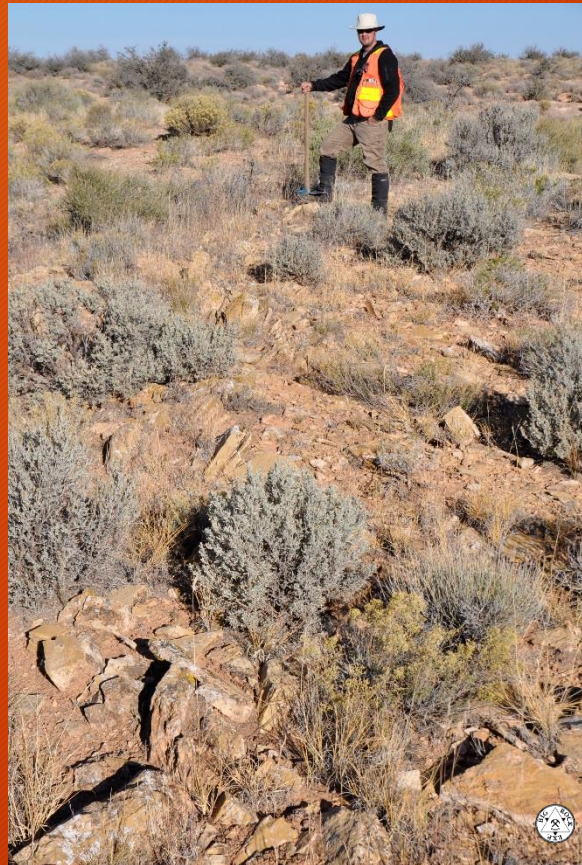

Big Rock has aided in many different acquisitions & project permitting throughout North America. Our team provides success in navigating permits required for exploration, drilling, environmental & mining. Whether its staking claims, negotiating leases, or maneuvering Forest Service permits, Big Rock has the experience you need to initiate your next project!

Acquisitions & Permitting
